

Micro Eze

Comprehensive Support
for Intestinal Health*

Micro Eze contains potent ingredients used in Ayurvedic medicine for centuries to help support intestinal health.* Neem extract, vidanga extract, and *Mimosa pudica* extract work to promote detoxification and support a healthy gut microbiome.*

How Micro Eze Works

The gut microbiome consists of trillions of microorganisms in the form of bacteria, viruses, and fungi. Some of these microorganisms can cause disease, while others are critical for the ongoing health of the immune system, the central nervous system, digestion, and other internal bodily processes.*^{1,2,3,4} A properly functioning gut microbiome may be responsible for:

- Promoting gut health by supporting a healthy intestinal tract.*⁵
- Supporting chemical processes that promote good heart health.*⁶
- Promoting the growth of intestinal flora that supports healthy weight and healthy blood sugar already in the normal range.*⁷
- Promoting healthy neurotransmitter communication through the central nervous system.*⁸

A healthy gut microbiome is needed to maintain overall health and well-being and may be supported through supplementation.* Micro Eze contains ingredients to help promote the growth of healthy intestinal flora.* It does this through three potent ingredients from ancient Ayurvedic practices that have also undergone modern clinical research trials.

- Neem extract is a potent herb that has been shown to support healthy intestinal flora.*⁹
- Vidanga extract is known for its ability to detoxify the body and provide comprehensive support of bodily systems and processes.*¹⁰
- *Mimosa pudica* extract is known for supporting intestinal and immune health.*¹¹ The extract is made from seeds of the plant that form a sticky gel that binds to the intestinal wall and through natural bodily elimination processes, removes toxins and buildup.*¹¹

Micro Eze Supplementation

The ingredients in Micro Eze are congruous with what research suggests to be effective and safe, particularly for supporting intestinal health.*

Clinical evidence and research cited herein show that the ingredients in Micro Eze may:

- Promote a healthy gut microbiome*
- Promote healthy intestinal flora*
- Promote healthy detoxification*

Form: 90 Capsules

Serving Size: 1 Capsule

Ingredients	Amount	%DV
Neem Extract (leaf; <i>Azadirachta indica</i>)	150 mg	*
Vidanga Extract (root; <i>Embelia ribes</i>)	150 mg	*
<i>Mimosa pudica</i> Extract (whole plant)	150 mg	*

Other Ingredients:

Hypromellose, vegetable magnesium stearate, silicon dioxide.

Directions:

Take one capsule daily as a dietary supplement, or as directed by your healthcare practitioner.

Caution: If you are pregnant, nursing, or taking medication, consult your healthcare practitioner before use. Keep out of reach of children.

GLUTEN-FREE

DAIRY-FREE

VEGETARIAN
