

Ultimate Fat Burner

Metabolism Support for
Healthy Body Composition[†]

NutriDyn Ultimate Fat Burner is a comprehensive plant-based dietary supplement that supports healthy body composition, metabolism, and longevity.^{♦†} This metabolism-supporting blend is composed of thermogenic ingredients, including raspberry ketone, *Garcinia cambogia* fruit extract, African mango seed extract, and green coffee bean extract.^{♦†}

How Ultimate Fat Burner Works

Thermogenesis is a process of converting calories into the heat (energy) essential for body homeostasis, as well as maintaining healthy metabolism and bodyweight. Research suggests that the ingredients contained in Ultimate Fat Burner help support metabolic rate and body composition by promoting thermogenesis.^{♦†} These ingredients also help support healthy appetite and calorie intake.^{♦†}

Raspberry ketone is a unique ketone not normally found in humans that gives raspberries their ruby red color. Research shows that raspberry ketone may support the body's ability to break down fatty acids (lipolysis), thus supporting fat burning metabolism and energy production.[♦] Moreover, African mango seed extract appears to reduce the rate at which carbohydrates are digested, resulting in lasting energy and less likelihood of blood sugar swings.[♦]

Ultimate Fat Burner also includes green coffee bean extract and *Garcinia cambogia*. Green coffee is coffee that has not been roasted and is a major source of chlorogenic acid (CGA). Studies have shown that consumption of green coffee extracts support healthy fat metabolism as well as supports the cardiovascular system.[♦]

Hydroxycitric acid (HCA) is the main acid derived from the fruit of the *Garcinia cambogia* tree, found mainly in Southeast Asia. HCA acts as an appetite suppressant by supporting serotonin levels.[♦] Increasing serotonin levels has been shown to decrease food intake, enhance mood, and reduce weight gain.[♦]

Ultimate Fat Burner Supplementation

The ingredients in Ultimate Fat Burner have thermogenic properties and work to support your metabolism and body composition.^{♦†} These ingredients do this by acting on specific receptors and chemicals in the body that promote fatty acid oxidation, appetite, energy production, and absorption of carbohydrates.[♦] Research suggests supplementation with Ultimate Fat Burner may:

- Support healthy metabolic rate and body composition^{♦†}
- Promote the use of fat tissue as energy^{♦†}
- Support energy and focus^{♦†}
- Support healthy appetite^{♦†}

Form: 180 Capsules

Serving Size: 3 Capsules

Ingredients	Amount	%DV
Garcinia Cambogia Fruit Extract (standardized to 60% hydroxycitric acid)	600 mg	*
Raspberry Ketone	500 mg	*
Green Coffee Bean Extract (standardized to 50% chlorogenic acid)	500 mg	*
African Mango (<i>Irvingia gabonensis</i>) Seed (4:1) Extract	150 mg	*

Other Ingredients:

Gelatin (capsule), rice flour, magnesium stearate, and silicon dioxide.

[†] In combination with proper diet and exercise.

Directions:

Take three capsules daily as a dietary supplement or as directed by your healthcare practitioner.

Caution: *If pregnant, nursing, or taking medication, consult your healthcare practitioner before use. Keep out of reach of children.*
