

Migra Eze

Synergistic Nutritional Support
for Cerebral Circulation*

Migra Eze is a comprehensive vitamin and herbal formula designed to support healthy brain function. Globally, more than 15% of the population are affected by cranial vascular issues, which are believed to start in adolescence and worsen with aging. The causes of such issues appear to be both genetic and environmental (such as dietary triggers and external stressors).

How Migra Eze Works

We formulated Migra Eze with efficacious, clinically-researched ingredients shown to support healthy stress response and vascular health in the brain.* The unique ingredient profile of Migra Eze includes key micronutrients for supporting brain health, including vitamin B2 (riboflavin) and magnesium.

Migra Eze also contains select herbal ingredients, including ginger root powder, feverfew, butterbur root and ginkgo biloba, that work synergistically to promote cranial vascular health and support healthy inflammatory response.*

Migra Eze Supplementation

Clinical research suggests that the ingredients in Migra Eze can help support cranial vascular health.* It appears these ingredients work to support healthy inflammation and neurotransmission, both of which have been associated with proper cranial vascular health.*

Clinical research suggests the primary benefits of Migra Eze supplementation may include:

- Supports and promotes cranial vascular health*
- Supports healthy vascular function*
- Promotes healthy neurotransmitter balance in the brain*

Form: 120 Capsules

Serving Size: 2 Capsules

Ingredients	Amount	%DV
Riboflavin (as riboflavin-5-phosphate)	190 mg	11,176%
