

URINARY CLEANSE

What is URINARY CLEANSE?

TonicSea Urinary Cleanse is an all-natural urinary tract support tincture containing organic uva ursi leaf (*Arctostaphylos uva ursi*), cleavers herb (*Galium aparine*), wintergreen leaf (*Gaultheria procumbens*), and cedar leaf (*Thuja occidentalis*). Maintaining healthy urinary tract function is imperative in adults, especially as we age into our later years.

Clinical findings suggest that herbal nutrients found in Urinary Cleanse can help support urinary tract health, gastrointestinal function, and the body's detoxification process.* Read on to learn more about how TonicSea Urinary Cleanse works and its benefits.*

How URINARY CLEANSE Works

Several organs, including the liver, kidneys, and bladder, are necessary for proper removal of potential toxins (via urine) from the body. The select medicinal herbs in Urinary Cleanse contain substances such as arbutin, tannic acid, methyl salicylate, quercetin, and procyanidins which help balance the pH of urine, assist with water removal from cells, support a healthy immune system, and strengthen the urinary tract lining.*

Furthermore, these herbs appear to support gastrointestinal function and reduce flatulence; they also have a "cleansing" effect by promoting a healthy Lymphatic system.* The Lymphatic system is responsible for flushing the byproducts of cell renewal and toxins down into the bloodstream to be cleansed by the liver and kidneys.

URINARY CLEANSE Supplementation

Research cited herein suggests that the medicinal herbs in Urinary Cleanse contain beneficial compounds for supporting urinary, gastrointestinal, and lymphatic function through a variety of mechanisms.*

In summary, the most pertinent research-backed benefits of supplementation with TonicSea Urinary Cleanse include:

- Supports healthy urinary tract function*
- Promotes gastrointestinal health*
- Supports a healthy lymphatic system*
- Supports the detoxification process*
- All-natural tincture made with organic uva ursi leaf
- Comes in liquid form for easy on-the-go use
