

FUNGICIDX

What Is FUNGICIDX?

TonicSea Fungicidx is a natural tincture containing a comprehensive blend of *Usnea barbata* (Lichen), Pau D'Arco (*Tabebuia impetiginosa*), Black Walnut (*Juglans nigra*), and Cedar Leaf (*Thuja occidentalis*). Maintaining healthy immune function is imperative in adults, especially as we age into our later years.*

Clinical findings suggest that herbal nutrients found in Fungicidx can help support immune function and the body's natural detoxification process.* Read on to learn more about how TonicSea Fungicidx works and its benefits.

How FUNGICIDX Works

The select herbs in Fungicidx contain active components, such as usnic acid, tannic acid, methyl salicylate, quercetin, and procyanidins which help support healthy immune function for a healthy and efficiently functioning body.*

Research suggests these herbs also appear to have a “cleansing” effect by promoting a healthy lymphatic system.* The lymphatic system is responsible for flushing the byproducts of cell renewal and toxins down into the bloodstream to be cleansed by your liver and kidneys. They may also support healthy microflora by effectively inhibiting sugar metabolism (which is necessary for growth).*

FUNGICIDX Supplementation

Research cited herein suggests that the herbs in Fungicidx contain beneficial compounds for supporting immune function and proper detoxification through a variety of mechanisms.*
